

STAGE 0: DESIGN LOCK - COMPLETE EXAMPLE

What You'll Actually Create (Weeks 1-3)

Purpose: Show Tim EXACTLY what Stage 0 deliverables look like before creating documents 1-6.

WHAT STAGE 0 PRODUCES

Stage 0 Deliverables (3 Weeks):

- └ Week 1: Foundation Design
 - | └ design-system.md (complete specification)
 - | └ tailwind.config.ts (configured)
 - | └ colors.ts (palette)
 - | └ typography.ts (scale)
 - | └ components-spec.md (Shaden + custom)
- └ Week 2: User Journey Maps
 - | └ journey-project-owner.md
 - | └ journey-contractor.md
 - | └ journey-architect.md
 - | └ journey-engineer.md
 - | └ journey-admin.md
 - | └ journey-kealee-pm.md
- └ Week 3: Wireframes & Data Models
 - | └ wireframes/ (Figma or ASCII art)
 - | └ os-admin/
 - | └ m-ops-services/
 - | └ m-project-owner/
 - | └ m-finance-trust/
 - | └ m-marketplace/
 - | └ m-architect/
 - | └ m-engineer/
 - | └ user-flows/
 - | └ flow-service-purchase.md
 - | └ flow-project-lifecycle.md
 - | └ flow-milestone-payment.md
 - | └ flow-lead-to-hire.md
 - | └ flow-design-approval.md
 - | └ flow-dispute-resolution.md

```
|
└─ data-models/
    ├── domain-model-erd.md
    ├── state-machines.md
    ├── api-contracts.md
    └─ event-contracts.md
```

EXAMPLE 1: DESIGN SYSTEM (Week 1 Output)

KEALEE PLATFORM V10 - DESIGN SYSTEM

Complete Specification

Color Palette

****Primary Colors (Brand)****

``typescript

// packages/ui/src/styles/colors.ts

```
export const colors = {
  primary: {
    50: '#f0f9ff', // Lightest blue
    100: '#e0f2fe',
    200: '#bae6fd',
    300: '#7dd3fc',
    400: '#38bdf8',
    500: '#0ea5e9', // Main brand color
    600: '#0284c7',
    700: '#0369a1',
    800: '#075985',
    900: '#0c4a6e', // Darkest blue
  },

  secondary: {
    50: '#faf5ff',
    100: '#f3e8ff',
    200: '#e9d5ff',
    300: '#d8b4fe',
    400: '#c084fc',
    500: '#a855f7', // Secondary accent
    600: '#9333ea',
    700: '#7e22ce',
    800: '#6b21a8',
    900: '#581c87',
  },

  neutral: {
    50: '#fafafa', // Backgrounds
    100: '#f4f4f5',
    200: '#e4e4e7',
    300: '#d4d4d8',
    400: '#a1a1aa',
    500: '#71717a', // Borders
    600: '#52525b',
```

```
700: '#3f3f46',
800: '#27272a', // Text
900: '#18181b', // Darkest
},
```

```
semantic: {
  success: {
    light: '#86efac',
    main: '#22c55e',
    dark: '#16a34a',
  },
  warning: {
    light: '#fcd34d',
    main: '#f59e0b',
    dark: '#d97706',
  },
  error: {
    light: '#fca5a5',
    main: '#ef4444',
    dark: '#dc2626',
  },
  info: {
    light: '#7dd3fc',
    main: '#0ea5e9',
    dark: '#0284c7',
  },
},
}
``
```

****Usage Rules:****

- Primary: Main CTAs, active states, links
- Secondary: Secondary actions, highlights
- Neutral: Backgrounds, borders, text
- Semantic: Status indicators, alerts, badges

Typography Scale

```
``typescript
```

```
// packages/ui/src/styles/typography.ts
```

```
export const typography = {
  fontFamily: {
    sans: ['Inter', 'system-ui', 'sans-serif'],
    mono: ['Fira Code', 'monospace'],
  },
},
```

```
fontSize: {
  xs: ['0.75rem', { lineHeight: '1rem' }], // 12px
  sm: ['0.875rem', { lineHeight: '1.25rem' }], // 14px
  base: ['1rem', { lineHeight: '1.5rem' }], // 16px
  lg: ['1.125rem', { lineHeight: '1.75rem' }], // 18px
  xl: ['1.25rem', { lineHeight: '1.75rem' }], // 20px
  '2xl': ['1.5rem', { lineHeight: '2rem' }], // 24px
  '3xl': ['1.875rem', { lineHeight: '2.25rem' }], // 30px
  '4xl': ['2.25rem', { lineHeight: '2.5rem' }], // 36px
  '5xl': ['3rem', { lineHeight: '1' }], // 48px
},
```

```
fontWeight: {
  normal: '400',
  medium: '500',
  semibold: '600',
  bold: '700',
},
}
```

****Usage:****

- Headings: H1=3xl/bold, H2=2xl/semibold, H3=xl/semibold
- Body: base/normal
- Captions: sm/normal
- Labels: sm/medium

Spacing Scale

```
``typescript
```

```
// Tailwind config
```

```
export const spacing = {
```

```
  0: '0px',
  1: '0.25rem', // 4px
  2: '0.5rem', // 8px
  3: '0.75rem', // 12px
  4: '1rem', // 16px
  5: '1.25rem', // 20px
  6: '1.5rem', // 24px
  8: '2rem', // 32px
  10: '2.5rem', // 40px
  12: '3rem', // 48px
  16: '4rem', // 64px
  20: '5rem', // 80px
```

```
24: '6rem', // 96px
```

```
}
```

```
...
```

****Usage:****

- Component padding: 4-6 (16-24px)
- Section spacing: 8-12 (32-48px)
- Page margins: 16-24 (64-96px)

Component Specifications

****Button Variants****

```
``typescript
```

```
// Primary Button
```

Click Me

Styles:

- Background: primary-600
- Hover: primary-700
- Text: white
- Padding: 12px 24px
- Border radius: 8px
- Font: base/medium

```
// Secondary Button
```

Cancel

Styles:

- Background: neutral-100
- Hover: neutral-200
- Text: neutral-900
- Border: 1px neutral-300

```
// Destructive Button
```

Delete

Styles:

- Background: error-600

- Hover: error-700

- Text: white

```

**\*\*Input Fields\*\***

```typescript

Styles:

- Height: 40px

- Padding: 10px 12px

- Border: 1px neutral-300

- Border radius: 6px

- Focus ring: primary-500 2px

- Error border: error-500

```

**\*\*Card Component\*\***

```typescript

Description

Content here

Action

Styles:

- Background: white

- Border: 1px neutral-200

- Border radius: 12px

- Padding: 24px

- Shadow: sm (0 1px 3px rgba(0,0,0,0.1))

```

### Icons

**\*\*Icon System:\*\*** Lucide React

```typescript

```
import {  
  Home,  
  Building2,  
  DollarSign,  
  Users,  
  FileText,  
  AlertCircle,  
  CheckCircle,  
  XCircle,  
  Settings,  
  LogOut,  
} from 'lucide-react'
```

Sizes:

- sm: 16px
 - md: 20px (default)
 - lg: 24px
 - xl: 32px
- ``

****Usage:****

- Navigation icons: md (20px)
- Action buttons: sm (16px)
- Hero sections: xl (32px)
- Status indicators: md (20px)

EXAMPLE 2: USER JOURNEY MAP (Week 2 Output)

File: [docs/design/journeys/journey-project-owner.md](#)

markdown

USER JOURNEY: PROJECT OWNER

From Signup to Project Completion

Persona

- ****Name:**** Sarah Johnson
- ****Role:**** Homeowner / Project Owner
- ****Goal:**** Renovate kitchen, ensure quality work, stay on budget
- ****Pain Points:**** Contractor reliability, payment disputes, lack of transparency

JOURNEY STAGES

Stage 1: Discovery & Signup (Week 0)

****Touchpoints:****

1. Hears about Kealee from friend
2. Visits kealee.com marketing site
3. Reads "How It Works" page
4. Signs up for account

****Actions:****

- Click "Get Started"
- Fill signup form (email, password, name)
- Verify email
- Complete onboarding wizard
 - Select role: "Project Owner"
 - Enter business/personal info
 - Set preferences

****Emotions:**** 😊 Curious → 😐 Cautious → 😊 Hopeful

****System Actions:****

- Create User record
- Send welcome email
- Create default Organization
- Assign HOMEOWNER role

****UI Screens:****

1. Marketing homepage
2. Signup form
3. Email verification
4. Onboarding wizard (4 steps)

5. Dashboard (empty state)

Stage 2: Create First Project (Week 1)

Touchpoints:

1. Dashboard empty state
2. "Create Project" wizard
3. Project created confirmation

Actions:

1. Click "Create Your First Project"
2. Project wizard - Step 1: Details
 - Project name: "Kitchen Renovation"
 - Category: "Kitchen"
 - Start date: "March 1, 2026"
 - Budget: "\$75,000"
3. Project wizard - Step 2: Property
 - Address: "123 Main St, Fort Washington, MD"
 - Property type: "Single Family"
 - Year built: "1995"
4. Project wizard - Step 3: Team
 - Add GC (search marketplace or invite)
 - Add PM (optional)
 - Add architect (optional)
5. Project wizard - Step 4: Review & Create
 - Review all details
 - Click "Create Project"

****Emotions:**** 😄 Excited → 😊 Confident

System Actions:

- Create Project record
- Create Property record
- Link to owner
- Send notifications to team
- Create default readiness checklist
- Initialize timeline

UI Screens:

1. Dashboard → Create Project button
2. Project wizard (4 steps, progress bar)
3. Project created success

4. Redirect to project dashboard

Stage 3: Readiness Checklist (Week 1-2)

****Touchpoints:****

1. Project dashboard
2. Readiness tab
3. Checklist items
4. Document upload

****Actions:****

1. Navigate to project → Readiness tab
2. Review checklist items:
 - [] Property deed uploaded
 - [] Budget finalized
 - [] Scope of work documented
 - [] Permits researched
 - [] Insurance verified
3. Upload documents for each item
4. Mark items complete
5. View readiness progress: 80%

****Emotions:**** 😞 Overwhelmed → 😊 Making progress

****System Actions:****

- Display readiness checklist
- Track completion percentage
- Allow document upload (S3)
- Link documents to checklist items
- Update readiness status

****UI Screens:****

1. Project dashboard → Readiness tab
2. Checklist view (list of items)
3. Document upload modal
4. Progress indicator (80% complete)

****GATE CHECK:**** Cannot create contract until 100% ready

Stage 4: Contract Creation (Week 2-3)

****Touchpoints:****

1. Project → Contracts tab
2. "Create Contract" (GATED - requires readiness)
3. Contract form
4. DocuSign integration

****Actions:****

1. Complete final readiness items → 100%
2. Navigate to Contracts tab
3. Click "Create Contract" (now enabled!)
4. Contract wizard:
 - Select contractor (from team or marketplace)
 - Enter contract terms
 - Upload contract PDF or use template
 - Set payment schedule
 - Define milestones
5. Review contract
6. Send for signature (DocuSign)
7. Sign contract
8. Contractor signs contract

****Emotions:**** 😬 Nervous → 😊 Confident → 🎉 Excited

****System Actions:****

- Create Contract record
- Link parties (owner, contractor)
- Send to DocuSign API
- Track signature status
- Update contract status: SIGNED
- Unlock permit gate
- Create escrow agreement (automatic)

****UI Screens:****

1. Readiness complete ✅
2. Contracts tab → Create Contract (enabled)
3. Contract wizard (5 steps)
4. DocuSign integration
5. Contract signed confirmation
6. Escrow created notification

****GATE CHECK:**** Contract SIGNED → Permits unlocked

Stage 5: Permit Submission (Week 3-4)

****Touchpoints:****

1. Project → Permits tab (NOW UNLOCKED)
2. Permit requirements
3. Submission preparation

****Actions:****

1. Navigate to Permits tab
2. View permit requirements for kitchen renovation
3. Review readiness checklist for permits:
 - [x] Contract signed 
 - [x] Drawings approved
 - [] Structural engineer stamp
 - [] Plumbing plans
 - [] Electrical plans
4. Upload required documents
5. Complete permit checklist
6. Submit to Kealee for review (Ops team)
7. Kealee reviews → Approves
8. Submit to jurisdiction

****Emotions:**** 😐 Bureaucratic → 😊 Supported

****System Actions:****

- Display permit requirements
- Enforce contract gate (PASSED)
- Track permit documents
- Queue for Ops review
- Submit to jurisdiction API (future)
- Track permit status

****UI Screens:****

1. Permits tab (unlocked after contract)
2. Permit requirements checklist
3. Document upload
4. Submit for review
5. Ops review queue (admin view)
6. Permit status tracker

Stage 6: Construction & Milestones (Week 5-16)

****Touchpoints:****

1. Project dashboard
2. Milestones tab
3. Evidence review
4. Payment approval

****Actions:****

1. Monitor project timeline
2. Receive notification: "Milestone 1 submitted"
3. Navigate to Milestones tab
4. Click on Milestone 1: "Demo Complete"
5. Review submitted evidence:
 - Photos (before/after demo)
 - Inspection report
 - Debris removal receipt
6. Verify work quality
7. Click "Approve Milestone"
8. Funds released from escrow

****Repeat for Milestones 2-8:****

- Rough plumbing
- Rough electrical
- Drywall
- Cabinets installed
- Countertops installed
- Final plumbing/electrical
- Final inspection

****Emotions:**** 😊 Excited → 😐 Anxious → 😊 Satisfied

****System Actions:****

- Display milestone list
- Track milestone status
- Store evidence (S3)
- Approval workflow
- Release payment (Stripe)
- Update escrow balance
- Notify contractor
- Update project progress: 50% → 90%

****UI Screens:****

1. Milestones list view
2. Milestone detail page

3. Evidence gallery
4. Approve/Reject modal
5. Payment confirmation
6. Escrow balance updated

Stage 7: Closeout (Week 16-17)

****Touchpoints:****

1. Project dashboard
2. Closeout tab
3. Punchlist
4. Final documents

****Actions:****

1. Navigate to Closeout tab
2. Create punchlist:
 - Touch-up paint on cabinet
 - Adjust cabinet door
 - Clean grout
3. Contractor completes punchlist items
4. Submit photos of completed items
5. Approve punchlist completion
6. Upload final documents:
 - Final inspection certificate
 - Warranty documents
 - As-built photos
7. Mark project complete
8. Release final payment
9. Leave review for contractor

****Emotions:**** 😊 Almost there → 🎉 Thrilled → 😊 Satisfied

****System Actions:****

- Create Punchlist record
- Track item completion
- Store final documents
- Release final payment
- Update project status: COMPLETED
- Trigger review request
- Update contractor performance score
- Generate completion certificate

****UI Screens:****

1. Closeout tab
2. Punchlist creation
3. Punchlist tracking
4. Final documents upload
5. Project completion modal
6. Review contractor form
7. Project completed celebration 🎉

Stage 8: Post-Project (Ongoing)

****Touchpoints:****

1. Project archive
2. Document access
3. Warranty support
4. Future projects

****Actions:****

1. Access completed project for reference
2. Download documents as needed
3. Submit warranty request (if needed)
4. Start new project ("Bathroom Renovation")

****Emotions:**** 😊 Satisfied → 😊 Loyal customer

****System Actions:****

- Archive project (soft delete)
- Maintain document access
- Handle warranty requests
- Suggest similar contractors
- Upsell managed services

****UI Screens:****

1. Completed projects list
2. Project archive view
3. Warranty request form
4. New project creation

KEY INSIGHTS

****Pain Points Addressed:****

- ✓ Transparency: All evidence visible before payment
- ✓ Protection: Escrow holds funds until approval
- ✓ Quality: Verification required for each milestone
- ✓ Documentation: All docs in one place

****Critical Features:****

1. Gating (readiness → contract → permits)
2. Evidence-based approvals
3. Escrow protection
4. Document management
5. Progress tracking

****Emotional Journey:****

Curious → Cautious → Hopeful → Excited → Confident → Nervous → Supported → Anxious → Satisfied → Thrilled → L

****Success Metrics:****

- Time to first project: < 1 hour
- Readiness completion: < 2 weeks
- Contract to construction: < 1 week
- Milestone approval time: < 2 days
- Project completion rate: > 90%
- Customer satisfaction: > 4.5/5

EXAMPLE 4: USER FLOW (Week 3 Output)

File: docs/design/user-flows/flow-milestone-payment.md

MILESTONE PAYMENT APPROVAL FLOW
From Contractor Submission to Payment Release

- ACTORS:
- Contractor (submits milestone)
 - Project Owner (approves milestone)
 - System (releases payment)
 - Admin (disputes only)

STEP 1: Contractor Completes Work

Contractor completes
Milestone 3: "Rough Plumbing"
Takes photos:
- Water lines installed
- Drain pipes installed
- Inspection report

Navigate to:
Project → Milestones →

Milestone 3

Click "Submit for Approval"

Upload evidence:

☒ Photo 1: Water lines

☒ Photo 2: Drain pipes

☒ Photo 3: Inspection report

☒ Document: Inspector sign-off

Add notes:

"All plumbing rough-in
completed per code.
Passed inspection."

[Submit for Approval]

SYSTEM:

- Update milestone status:

SUBMITTED

- Upload files to S3

- Create notification

- Send email to owner

- Update project timeline

STEP 2: Owner Receives Notification

 Email Notification:

"Milestone Submitted"

Kitchen Renovation

Milestone 3: Rough Plumbing

Amount: \$8,500

Submitted by: ABC Plumbing

[Review & Approve]

In-App Notification:

Bell icon shows (1)

"New milestone submitted"

Dashboard shows:

"Pending Approvals (1)"

Inspection Report.pdf [Download]

Contractor Notes:

"All plumbing rough-in completed per code."

Passed inspection on 1/10/2026."

Escrow Balance: \$25,000

After Release: \$16,500

Owner Decision:

[☒ Approve & Release Payment]

[☒ Reject - Request Changes]

[☒ File Dispute]

Owner clicks photos to view

full size in lightbox

Verifies:

☒ Work matches scope

☒ Quality acceptable

☒ Inspection passed

☒ Photos clear and complete

STEP 4A: Owner Approves (Happy Path)

Click "Approve & Release

Payment"

Confirmation Modal:

☒ Confirm Payment Release

You are about to release:

\$8,500

To: ABC Plumbing Co.

For: Milestone 3 - Rough
Plumbing

This action cannot be undone.

[Cancel] [Confirm Release]

Owner clicks "Confirm Release"

SYSTEM:

1. Update milestone status:
APPROVED
2. Queue payment job (BullMQ)
3. Show success message
4. Notify contractor

SUCCESS MESSAGE:

☒ Payment Approved

Milestone 3 approved.
Payment of \$8,500 will be
processed within 2 hours.

[View Escrow Balance]

[Back to Dashboard]

STEP 5: Background Payment Processing

WORKER JOB:

(services/worker/payment)

1. Fetch milestone details
2. Verify escrow balance
3. Call Stripe API:

| |
|-------------------------------|
| Transfer \$8,500 |
| 4. Create ledger entries: |
| - Debit escrow: -\$8,500 |
| - Credit contractor: +\$8,500 |
| 5. Update milestone status: |
| PAID |
| 6. Send confirmations |
| 7. Update project progress |

| |
|---------------------|
| STRIPE WEBHOOK: |
| transfer.succeeded |
| |
| Webhook received → |
| Queue webhook job → |
| Reconcile ledger → |
| Mark complete |

| |
|------------------------------|
| NOTIFICATIONS: |
| |
| To Owner: |
| "Payment of \$8,500 released |
| to ABC Plumbing Co." |
| |
| To Contractor: |
| "Payment received: \$8,500 |
| for Milestone 3" |

STEP 4B: Owner Rejects (Alternate Path)

| |
|-------------------------|
| Click "Reject - Request |
| Changes" |

| |
|--|
| Rejection Modal: |
| |
|  Reject Milestone |

Please explain what needs
to be corrected:

The drain pipe under the
sink is not properly
secured. Please add
support brackets.

Upload photos (optional):

[Upload]

[Cancel] [Send to Contractor]

SYSTEM:

- Update milestone: REJECTED
- Create comment thread
- Notify contractor
- Payment remains in escrow

Contractor receives:

"Milestone rejected. Changes
requested."

Makes corrections →

Resubmits milestone →

Cycle repeats

STEP 4C: Owner Files Dispute (Conflict Path)

Click "File Dispute"

Dispute Modal:

⚠ File Dispute

This will freeze all payments
until resolved by Kealee.

Reason for dispute:

- Work does not match scope.
- Substandard quality.

Upload evidence:

[Upload Photos]

[Cancel] [Submit Dispute]

SYSTEM:

- Create Dispute record
- FREEZE all payments
- Update milestone: DISPUTED
- Notify admin (Ops team)
- Notify contractor
- Lock milestone

ADMIN WORKFLOW:

(in Ops OS)

- Review evidence from both
- Mediate resolution
- Make decision
- Unfreeze payment or adjust

FINAL STATE:

Milestone 3: PAID ✓

Payment: \$8,500

| | |
|-----------------------------|--|
| Released: 1/13/2026 | |
| Contractor received funds | |
| Project progress: 30% → 40% | |
| Escrow balance: \$16,500 | |

ERROR HANDLING:

- Stripe failure → Retry 3x → Notify admin → Manual processing
- Insufficient escrow → Block approval → Show error
- Duplicate approval → Idempotency check → Prevent double payment
