

BUILDING ELEVATIONS — CONCEPT MASSING

Livingston of Fort Washington (11901 Gunpowder Dr / 12000 Livingston Rd) — CGO mixed-use concept - zone CGO - drawn from the yield study's dimensions; openings, materials and roof form are placeholders for the architect. Heights are to the parapet or ridge, measured from average grade at the building.

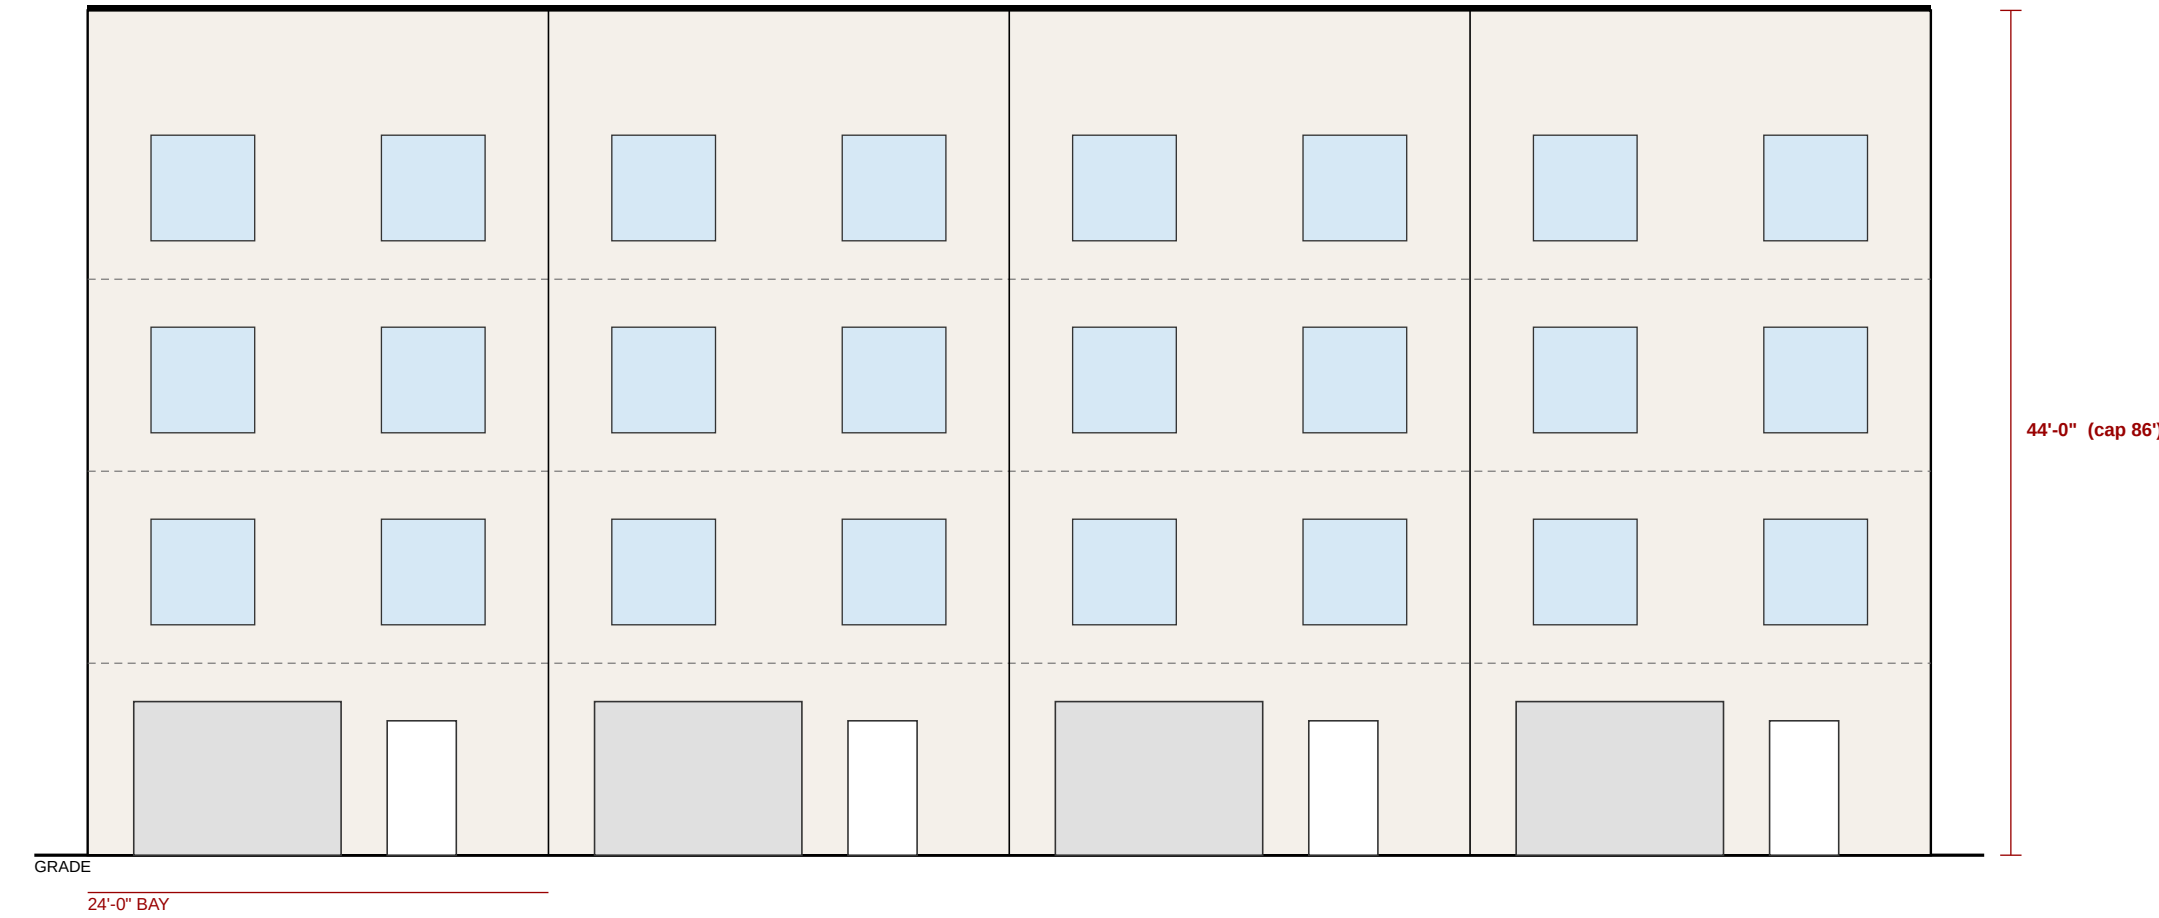

MIXED USE — RETAIL AT GRADE, DWELLINGS ABOVE — FRONT ELEVATION · 1/10" = 1'

Three of the 7 party-wall buildings on the street line of Gunpowder Drive; 7,000 sf retail at grade, four residential floors (22.4k) each; 14-ft ground floor, 12-ft floors above.

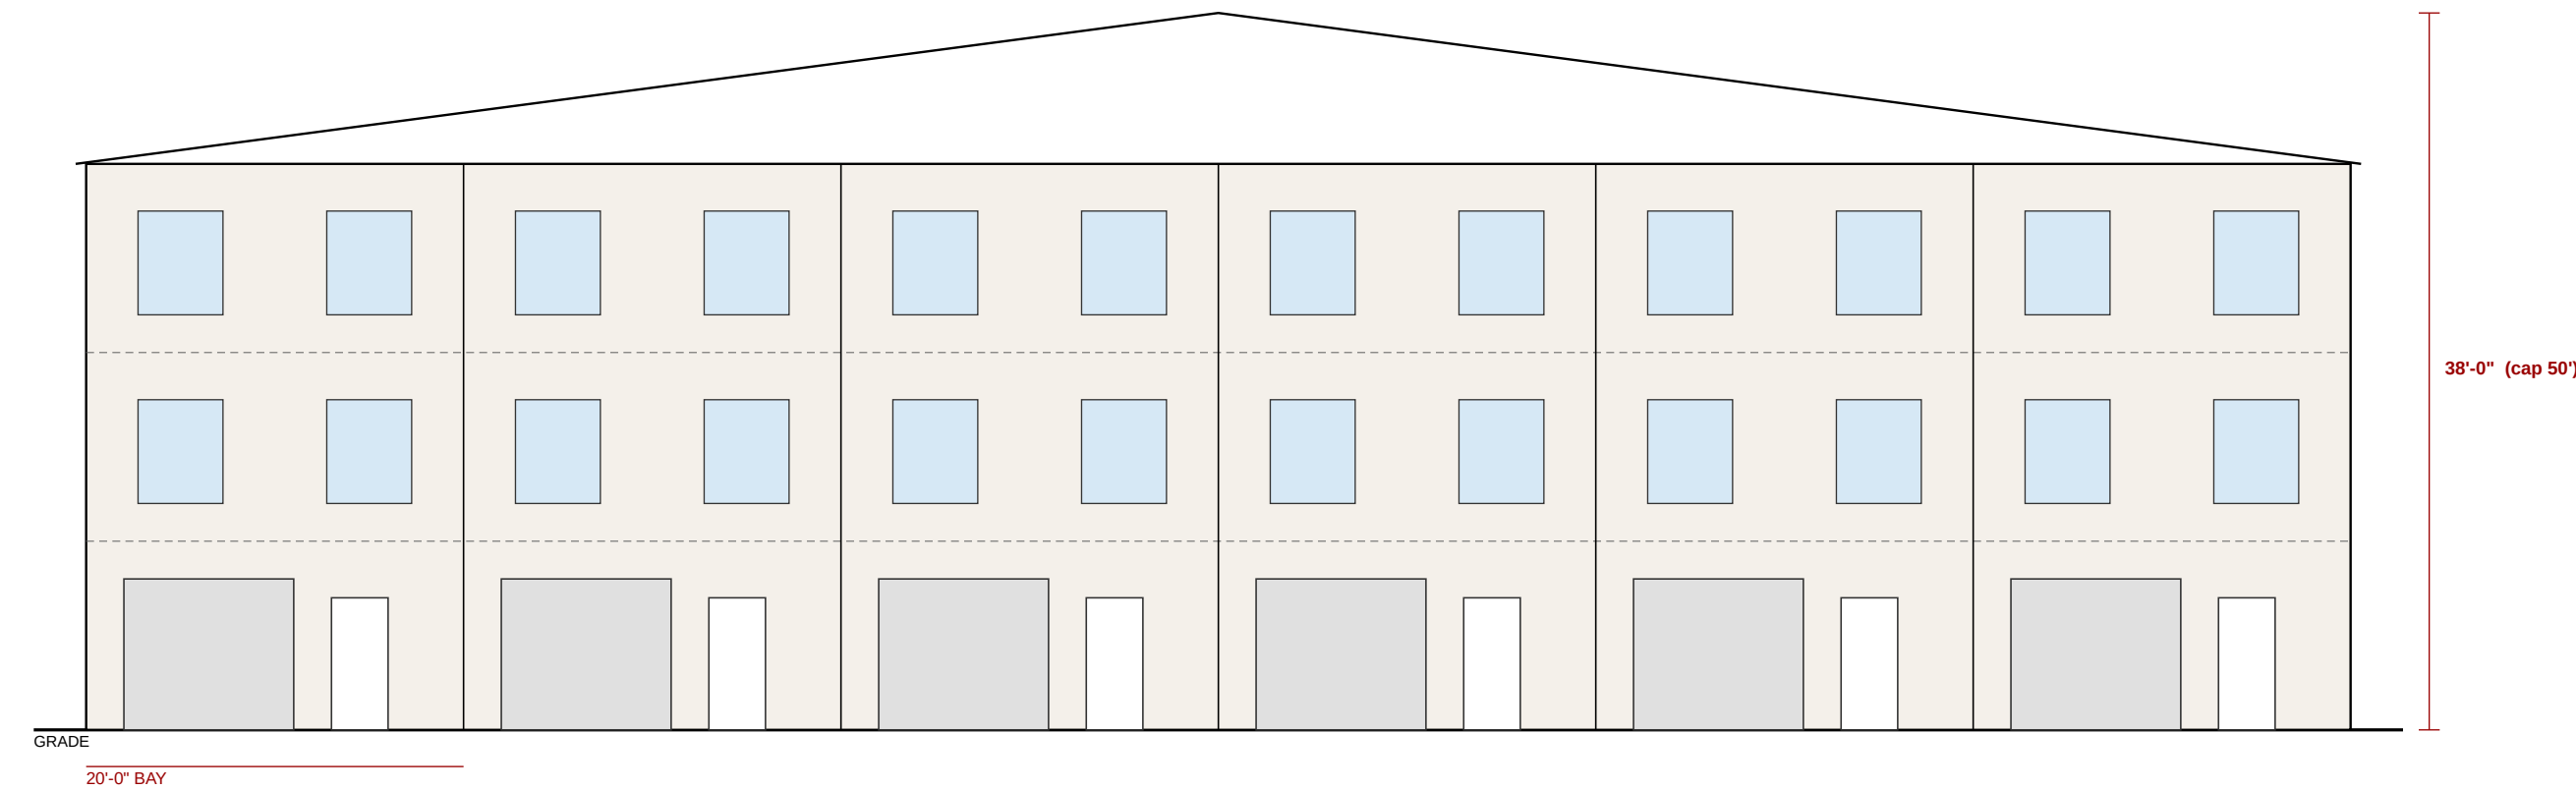

TWO-OVER-TWO — STACKED, TWO DWELLINGS PER BAY — FRONT ELEVATION · 1/10" = 1'

Four of 8 bays; a lower two-storey dwelling over its garage and an upper two-storey dwelling, 24-ft bays, 44 ft to the parapet.

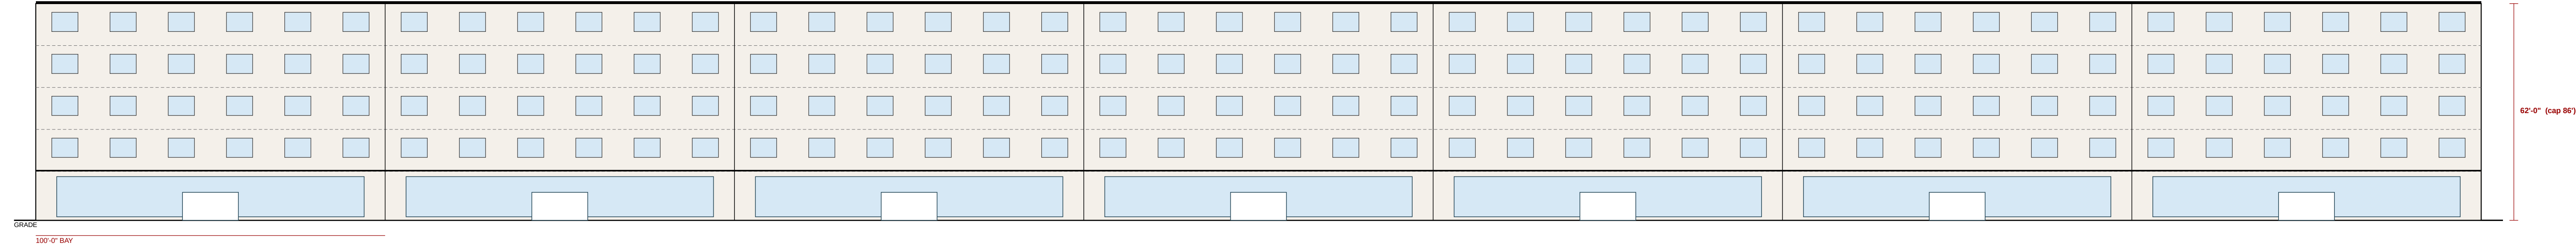

TOWNHOUSE — STICK OF SIX — FRONT ELEVATION · 1/10" = 1'

20-ft units, three storeys with a front-load garage, 38 ft to the ridge.

STREET ELEVATION — GUNPOWDER DRIVE FRONTAGE, 7 BUILDINGS · 1" = 22'

CONCEPT MASSING ONLY — not construction documents. Storey heights 14 ft (retail) / 12 ft (residential over retail) / 10 ft (townhouse, two-over-two, duplex) are assumptions; the zone cap is the certified Sec. 27-4203 figure.
